## ABOUT US

With its young and innovative staff, **VALFEN Industrial Engineering Foreign Inc.** was founded in İzmir in order to provide you with the best service in the installation industry. With a staff of expert engineers, we have been rendering our services to our valuable customers in manufacturing, dealership and distribution of leading brands in the world and Turkey without any compromise in quality.

Being particularly prominent with the manufacturing of RMS-A, RMS-B and RMS-C stations, **VALFEN ENDÜSTRİYEL** is also aiming to have a company structure that makes a difference in its pre-sale and post-sale services by making distribution agreements with strong brands in the industry. Providing the quickest and the most accurate service for the requested products is our principle. We will be happy to see you as a part of our family...

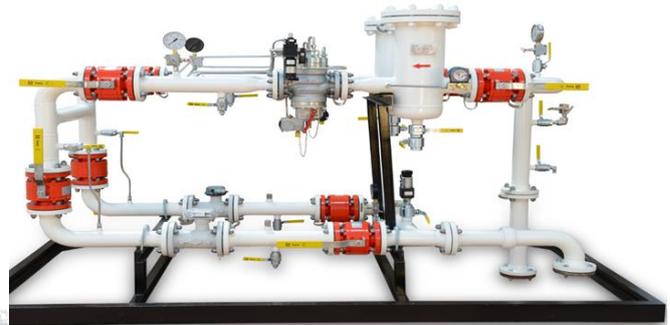

Best Regards,
